

WELCOME TO A SEAMLESS STATE OF FLOW

WHERE
EXPERIENCES
BECOME
L I F E S T Y L E S

Follow the call of the ocean and discover a modernist way of life, led by design. The building's flowing physical facade is akin to the way the interiors fit seamlessly with the lives and lifestyles of its residents — a place to find a new way to co-exist with the ocean.

ARCHITECTURAL
SYNERGY

ARCHITECTURAL SYNERGY

ALWAYS
IN
MOTION

Emulating the undulation of waves and tides, the architectural form appears always in motion. Its curves have a fluidity that draws your eye to the building's connection with the Gulf and the calming nature of its beachside location.

A NEW ARRIVAL

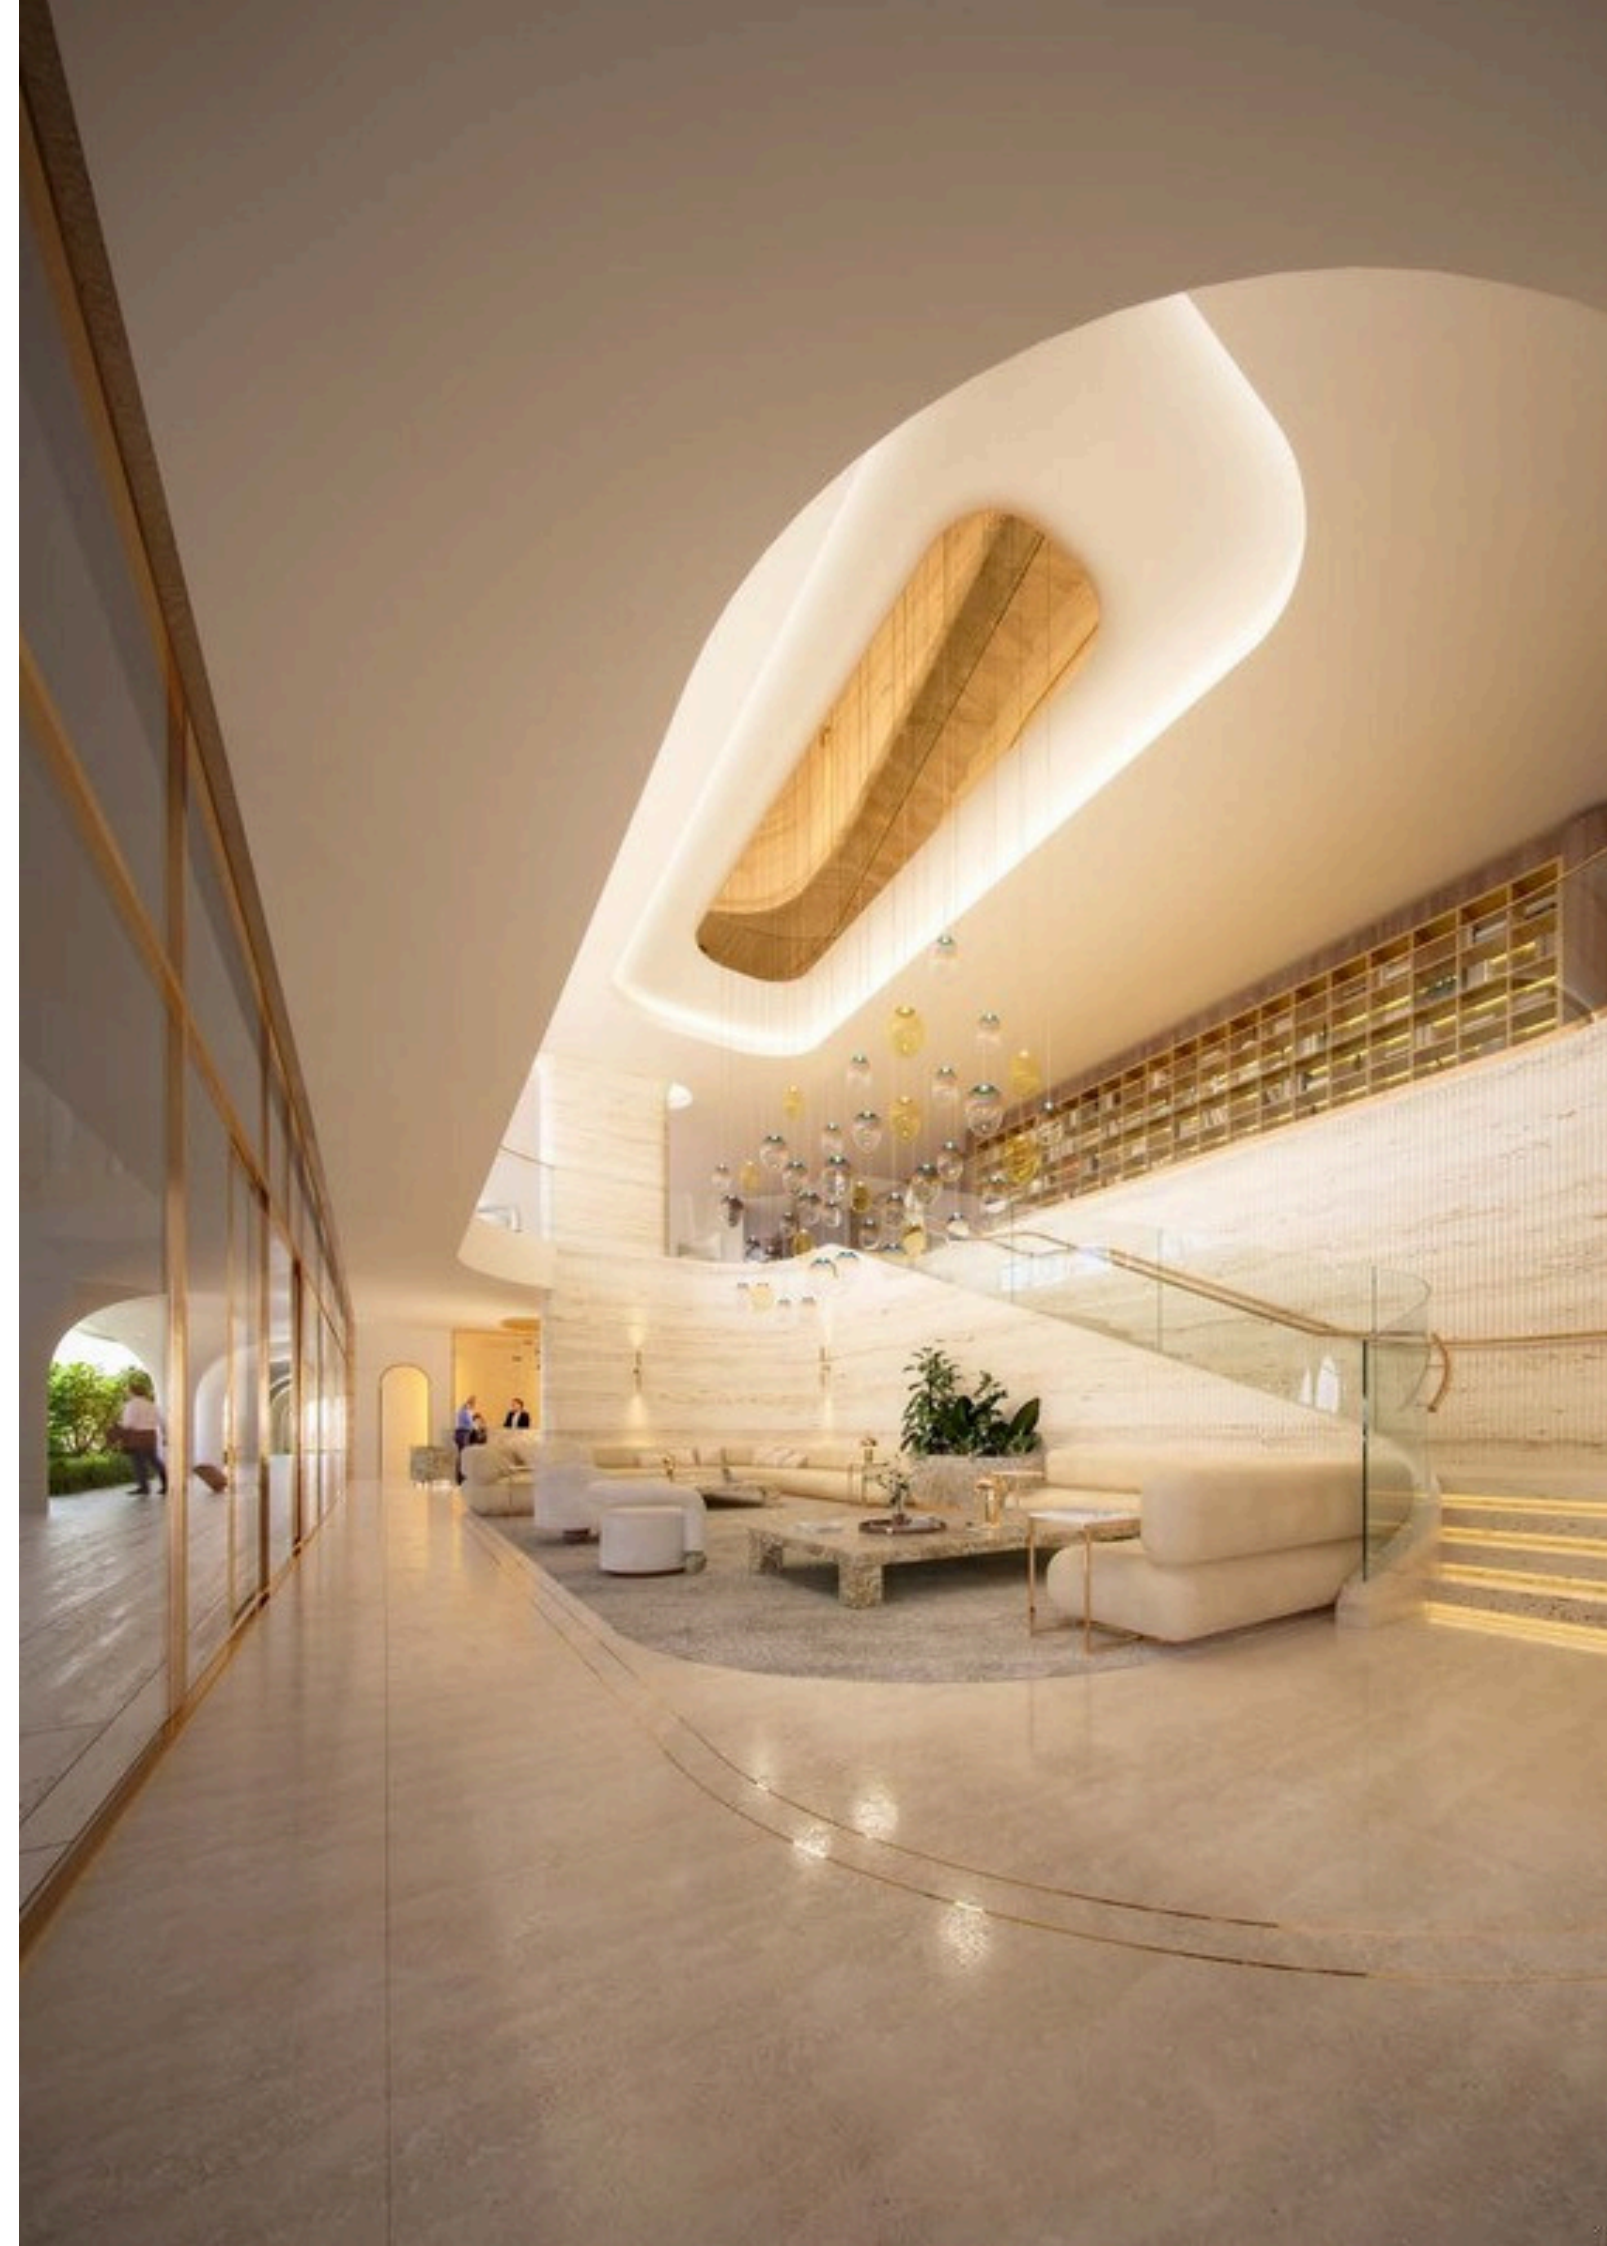

THE LOBBY

WHERE
THE
OCEAN
MEETS
THE
SAND

Residents are welcomed home to a vast double-height lobby with a hotel-style pick-up and drop-off. Spanning two floors of the building, the Lobby features a beautiful carved stone reception desk, inviting you to discover a comfortable lounge and private co-working spaces.

A wooden sculptural staircase takes you to the first floor, where an art gallery and skyline views from the terrace await. At this upper level, there is also access to the property's exclusive spa and salt caves via the privacy of a corridor with curved walls in natural stone.

FOLLOW THE OCEAN

At our residential, a 'lifestyle' is not defined by how many amenities are on offer, or even by how exclusive they are. Here, they are transformed into experiences, made unforgettable by design.

WATER

Next in your odyssey through the elements, the refreshing cascades of rain showers, soothing hydromassage and chromotherapy showers trigger a multitude of rejuvenating senses — combined with aromatherapy steam showers and mineral-enriched power showers, you are left feeling renewed.

SALT

Health and well being is at the heart of this house. And the wellness studio is the pulse. Embark on a journey through the healing properties of salt and water with halo therapy salt cave and kneip path walks, infrared sauna and steam rooms.

AIR

Wellness through the building like a sea breeze. Accessible from the lobby, residents have private access to an outdoor yoga area with a calming water feature, a fitness gym looking out over the swimming pool view and changing areas featuring steam rooms, a sauna and an enclosed outdoor shower.

THE CLUBHOUSE

EXCELLENCE
FOR
ALL
TASTES

The decadence of The Clubhouse is an invitation for all tastes and occasions to excel. The space is a reconfigurable lounge and dining area complete with a show kitchen for private chefs, wine and cigar rooms, as well as a bar with games tables and a plush private cinema room.

CHILDREN'S PLAY AREA

AN
ADVENTURE

FOR
KIDS

Fun and games for our younger residents are not forgotten. On the ground floor they will find a unique play area with a climbing wall, storybooks, art areas, sensory walls and a motor skills busy board.

The vast interiors introduce textures and funnels of light that speak the language of the sea: calming, refreshing, soothing and powerful. White marble, travertine, warm oak and earthy upholstery bring a natural harmony to open and intimate spaces. This counteracts the patterned rugs and champagne gold fixtures that exude the property's unique modern character.

LIVING ROOMS

Upon an expanse of natural marble that extends through the apartments, sumptuous living spaces look out across the water from curved balconies – with Royal Atlantis to the West and Burj Al Arab to the North East. These stunning rooms are adorned in plush furnishing and the finer details of living.

KITCHENS

OPEN

PLAN

OPEN

MIND

Blending seamlessly into living spaces, the kitchen follows the line-of-sight from out at sea. It is centred around a grand island in natural stone and surrounded by soft-toned cabinetry. Subtle metallic finishes can be found in fittings and appliances, showcasing a level of detailing

BEDROOMS

YOUR
PRIVATE
VIEW

The most intimate spaces in the building, bedrooms can be soothing, rejuvenating, awakening and nourishing over 24 hours. They are designed to give every resident a unique sense of belonging by harmonising with their lifestyles as seamlessly as the sun rising over the ocean and setting over the Dubai skyline.

BATHROOMS

WELLNESS RITUALS

Living In a paradise, apartments are gifted with bathrooms designed to promote rituals of wellness. Taking inspiration from nature with textured stone and marble, the bathrooms feature large UV stable free-standing bathtubs designed to retain heat, fully sealed flush stone counters and sensor-touch wellness spa areas built-in.
