

Figure 1 illustrates the construction of a sequence of intervals. The top line represents a total length of 20.49. The bottom line shows a sequence of intervals: 124, 2.01 (with 2.13^5 below it), 125, 74, 2.01 (with 2.13^5 below it), 49, 2.01 (with 1.26 below it), and 99. The sum of these intervals is 11.49.
